

Service Bulletin

Date: March 2004

Bulletin No: 00 003 04 (021)

BMW Motorrad USA

Topic: New Software package for BMW Motorrad Group Tester One (GT1).

Subject: With the launch of the R 1200 GS , a few modifications have been made to the software of the BMW Motorrad Group Tester One (GT1)

The following software contents are available with the new "R 1200 GS" software package:

Details: **1. User Manual**

The user manual has been revised again due to the extensive changes in the software. The CD is not included with the software package but will be sent out free of charge with automatic shipment from the middle of March. Every retailer receiving an R 1200 GS Software Package part number **90 88 6 99 0 701** will receive a user manual.

The most important parts of the user manual (**Installation and Startup...**) can be accessed from Technical Training MT 049 Diagnostic Equipment Update.

2. GT 1 Base Software

The previous Base CDs "Installation GT1 V1.2 (Yellow CD) and GT1 Base V1.2 (GreyCD) are replaced by the base DVD "GT1 Base V2.0" (Yellow CD) Microsoft Windows XP Professional is used to replace Microsoft Windows 98 as the operating system.

Important **3. Diagnosis Software**

Point: With the launch of the new models, the Diagnosis CD 14.0 replaces the previous versions. This CD has been revised to include the new models R 1200 GS, K 1200 LT (MY 2004), F 650 GS / Dakar (MY 2004) and F 650 CS (MY 2004).

Diagnosis CD14.0 can only be installed in the GT1. This software is authorized for GT1 exclusively.

Important **4. CIP software for programming and coding**

Point: The CIP application (Coding, Individualisation and Programming) must be used for coding and programming electronic control modules in motorcycles with CAN electrical systems. The new CIP CD 1.0 is therefore included in the new "R 1200 GS" software package.

The CIP CD1.0 can only be installed in the GT1. This software is authorized for GT1 exclusively.
